

VOTE IN HOUSE HELPS HARBOR.

Gives More Money for Rivers and Harbors.

Means Addition of \$100,000 for Local Port.

Lineberger Leads Fight for Appropriation.

(EXCLUSIVE DISPATCH.)

WASHINGTON, March 27.—Los Angeles will be better off, at least, to the extent of more than \$100,000, in the development of the harbor, if the House tomorrow sustains the action of the Congressmen sitting as a committee of the whole today.

By a vote of 3 to 1, the members voted to amend the Army bill by increasing the appropriation for maintenance and development of rivers and harbors from \$27,000,000 to almost \$45,000,000. This action was taken after a bitter fight, and a long debate.

DENOUNCED BY MONDELL.

House Leader Mondell and Chairman Madden of the Appropriations Committee both denounced the action of the Congressmen as an assault on the policy of economy and reduced expenses, but the rank and file of the committee were almost unanimous for the increase, and Congressman Lineberger of the Rivers and Harbors Committee, and Congressmen Osborne, who preceded him as the committee, and who had been fighting for the increase, predicted that on a roll call tomorrow the increase will be passed by a large margin.

That prediction is made, too, in the face of efforts of Mondell and Madden tonight to force many of the Congressmen who today voted for the increase to line up with the House leaders and keep the appropriation down to the original figure.

Those advocating the increase point out that the sum of \$45,000,000 is the minimum required by the Board of Engineers as the absolute minimum by which the present harbor work, both in development and maintenance, could be maintained and an attempt to the contrary does not seem to make much of an impression on them. It is because of this attitude that both Lineberger and Osborne are confident of a complete success tomorrow, when the record vote is taken.

LOS ANGELES INTERESTED.

The change to a larger amount is the greatest possible interest to the entire Pacific Coast, but particularly to Los Angeles. If the total amount recommended is passed, while Los Angeles Harbor will have to give up from this appropriation in the next fiscal year in widening and strengthening the inner channel and other works, dredging and improving the harbor \$25,000,000.

If the \$15,000,000 additional is denied the reduction in work in Los Angeles Harbor will be in excess of \$100,000, and the full development of the harbor will be delayed many months, or until additional funds can be obtained.

Congressman Lineberger made a brief speech in advance of the increased amount and quoted from the party platforms of the Republicans and Democrats alike, as favoring the development of proper harbors for the development of foreign trade, and an encouragement to the American merchant marine and all forms of ocean shipping.

In the few minutes at his disposal he made a telling plea for the Pacific Coast, and especially for the local harbor. Practically every western member of Congress is for the increased appropriation, with the exception of Congressmen Nolan of the Fifth California District, and Clegg of the First and Seventh California District. Neither of these members made known the reasons for his adverse vote, but the Californians leading the fight for the increase are certain that they will win even without their support.

GOTHAM POLICE PRECAUTIONS AGAINST DISORDER NOT NEEDED; PARADE OF JOBLESS FLIVVERS.

(BY A. P. NIGHT WIRE.)

NEW YORK, March 27.—Spring fever today made unnecessary elaborate precautions taken by the police to guard against possible disorder in a double parade of unemployed, scheduled to call at the City Hall with demands for jobs.

There was no disorder and there was scarcely any parade, unless one expected the host of bluecoats who marched into City Hall Park like a pocket edition of the annual police procession. One branch of the parade—seven weak—set forth from South street. The second branch—with nine in line—began away from Seventh street and Third avenue. They joined forces in Chinatown and, alternately picking up recruits and dropping them, wound up in front of the City Hall with a total of twenty-seven. Police permit which their leaders carried stated that 2000 might take the stroll.

Guarding the surviving twenty-seven were fifty police afoot, a dozen mounted, six Department of Justice agents, several members of the bomb squad and divers police inspectors, captains and lieutenants. Surrounding and threatening to engulf the parade were hundreds of workers out for lunch.

The parade slowly dissolved and those on the park benches yawned.

Lord Birkenhead, the Lord Chancellor, in dealing with the future of the Anglo-Irish treaty, said he was not extravagantly optimistic over it, but that there was no ground for abandoning hope.

PROOF OF SINCERITY.

"What encourages me most," he continued, "is the affirmative proof of the sincerity of the man with whom we are dealing."

In the course of his speech Lord Carson, the former Ulster leader, said he was not at all optimistic over the future of the Anglo-Irish treaty, said he was not extravagantly optimistic over it, but that there was no ground for abandoning hope.

PARIS, March 27.—The French government will approve of adoption by the French Parliament of the national reservation for the four-power pact, according to a statement made by the United States Senate, was stated today in official circles.

It was pointed out by French officials that as the Washington conference agreement provided that merchants could arm against submarine or men-of-war and could even be camouflaged to fight under water, while the latest order was to the contrary, the French government must have made some changes in the emergency act.

It will be a community proposition, he said, and no charge will be made. Skating will be enjoyed day and night, he said.

SAYS PEACE RESTS ON ARMY OF JAPAN.

(BY CAREY AND ASSOCIATED PRESS.)

TOKIO, Feb. 28.—That the burden of government is the price of peace and that the peace in the Far East rests on the shoulders of the Japanese army, which should not be reduced, are the views of Gen. Gichi Tanaka, formerly Minister of War, and now military counsellor, as reported by the Osaka Jiji.

BEET CONTRACT FIGURES MIXED.

(Continued from First Page.)

Principle of Sliding Scale is Adopted.

Farmer's Price Depends on Sugar Market.

Gives Grower Slightly Better Net Return.

(BY A. P. NIGHT WIRE.)

SALT LAKE CITY, March 27.—Agreement has just been reached by officials of the Utah State Farm Bureau and the Utah-Idaho and Amalgamated Sugar companies on sugar beet contracts for 1922. The contract, to be signed by both, is based on the principle of the sliding scale, under which the farmer's price for his beets will depend upon the price received by the manufacturers for the sugar, determined in the ratio of 4.5 to the farmers and 5.5 per cent to the manufacturers. No contracts have been named for seed beets and prices will be agreed upon later.

BETTER RETURNS.

Except as to the price which gives the farmer a somewhat greater return for his beets than did the 1921 contract, the bargain entered is substantially the same.

By Senator Hitchcock of Nebraska, senior Democratic member of the Foreign Relations Committee, it was declared that the Senate's action in giving its approval to the supplement as an admission to Japan that the supplement's provisions are not a part of the four-power pact. "Other members," he added, "had argued that the only proper procedure was to reconsider the vote ratifying the four-power pact as to include the supplement in the ratification. Adoption of the domestic questions in the supplement is a violation of the geographical supplement, however, was by a viva voce vote.

About Hobbies

Columbus had a hobby: he thought the world was round.

Newton, Shakespeare, Galileo, Mendelssohn, Michael Angelo, Fulton, Marconi—all had hobbies.

Every man, every woman has a hobby at times. Charles Schwab's hobby is making steel rails and girders. John D. Rockefeller's hobby is oil—and dollars.

The trouble with most of us is that we only have hobbies now and then. We're not consistent—one hobby today, another tomorrow.

The laurel wreath goes to the man who "gets a hobby" at an early age and sticks to it through life.

Modesty forbids that we class ourselves among the great of the world, the illustrious company of hobby riders named in the preceding paragraphs.

But we have a hobby too!

Ours is giving you the best kind of clothes we can find and the best kind of service. Hart Schaffner & Marx's hobby is giving you the best quality, the latest style.

And we're trying every day to make Silverwood's a hobby with you.

OUR DUTY TO AID FRANCE.

Anne Morgan Says America Should Rise Above Present Money Grabbing and Help Needy.

[EXCLUSIVE DISPATCH]

CHICAGO, March 27.—"We are not asking for money to rebuild buildings—we want help in rebuilding bodies and souls!" Anne Morgan, whose distinction as the daughter of J. Pierpont Morgan has long since given way to her fame as philanthropist and social worker, fingered a diamond-studded fleur de lis in her pendant that hung at her wrist. "And America owes it to France to help build up her people. The men of France fought and died for two years before America could decide whether or not she would join in the war. France is a big, thinking nation with vision and principle, when big business and industrial heads had brought it to such a state of prosperity as it enjoyed in 1915. But it has deteriorated into a nation of money grabbers."

"My family would say that there is only one security worth taking—that was the security of character. And America has missed the greatest opportunity of its history when it refused to accept such security from France."

[EXCLUSIVE DISPATCH]

NEW YORK, March 27.—Sordid infernal charges, alleged details of Tex Rickard's past, including attentions to minor girls years ago, cheating at poker, abandoning stock, and selling dubious oil stocks, were worked into the record by the State in the afternoon in the cross-examination of the defendant, Rickard, apparently taken by surprise at the State's attack. answered excitedly a shower of interrogations which were taken to indicate his enemies in Alaska and Nevada did not have sun-teaming aid to the prosecution.

INDIGNANT DENIAL.

To all these questions, Rickard answered: "No" indignantly and emphatically.

The prosecution turned to the Rickard Oil Company, which promotes of Rickard and forced the witness to admit that the stocks of the former floated at \$20 a share, sell at 50 cents now.

A lighted incident came when Rickard's attorney told the court he was the police "secret service" work which entitles him to carry firearms. The service was so secret, he insisted, that it should not be disclosed even in court.

He was asked if he produced a card reading: "New York police department: special service bureau." The card was signed by Commissioner Enright and Fred P. Clark. It is known that Rickard was enrolled as a captain for special service. Rickard admitted special service.

He was asked if he had a badge, but said he didn't know what the color of it was as he had not looked at it since the police Commissioner.

Rex Schenfeld, for an alleged attack on whom Rickard is on trial, last week testified that Rickard showed her a gold police badge and told her he was a special deputy Police Commissioner.

STORY OF LIFE.

In a quick, nervous voice, Rickard told the romantic story of his life. Born in Kansas City, he went to work milking cows in the Fanhandle of Texas when his father died. He was 10 years old then. He graduated into ranchland, then full-fledged cowpuncher. He was Old Man of Hettie, Tex., when he heard the first call of gold in Alaska.

He began prospecting at Circle City in 1896. He followed a Klonian claim and a claim and gambled heavily in it. It cost him \$5,000 and lost it all when a miner broke the bank.

Denying ever having employed women in his establishments, he told of his romance and gamblin operations in Alaska and in Nevada, following the gold discoveries there in 1904. Then followed his Gans-Nelson and Jeffries Johnson fight promotions, then his faraway cattle land ventures abandoned at the outbreak of the war.

PRODUCES ALIBI.

Rickard on direct examination testified that on the night of January 23 he was in the home of his attorney, with Charles Thorley, Fifth Avenue, and former Judge Lehman, from 10 to 10 o'clock. Nellie Gasko and Sarah Schoenfeld swore he took them for a ride in Central Park in his automobile at 9 o'clock that night.

Rickard emphatically denied ever having an improper relation with either Nellie or Sarah. He said he went to 24 West Forty-seventh street, mentioned in the indictment as one of the scenes of alleged assault, only to look after his liquor stored in the basement there. On November 11, on date mentioned in the indictment, he swore he was at the Polo Grounds as a spectator at a football game, remembering this distinctly, as he never had seen a football game before. Nellie Gasko, Rickard said, had

DAILY TRADE TALK.

Easy Money Does Not Mean That It's Easy to Get; Business Volume Grows.

By CHAPIN HALL.

"Easy money" does not mean that a borrower can secure all the funds he desires for actual investments from which he deduces theoretical profits. A good many customers have found this out from their bankers recently.

Professional money lenders have an uncanny habit of peering into the future which sees and soothsayers would give much to possess. They are not so much bankers, and when it comes to discussing the future the rate is high.

It is not that there is any fear that Los Angeles will not maintain her high position during 1932. No one can deny that, but it is constantly necessary to curb the enthusiasts who think largely, and to whom the matter of a few additional cipher are a mere nothing.

Merchants have learned to cut their cloth to the demand, and having disposed of stocks purchased on a rising market are back on a normal trade basis of quick turnover and small margin. The dollar value is considerably less than it was a year ago so that when we discuss trade in terms of volume and find a close approximation to that of the early days of reconstruction, it means that business is actually much better, because more goods must be sold to achieve the same results.

Income-tax returns, while by no means complete, indicate a falling off in the number of days of adjustment. It means that business is actually much better, because more goods must be sold to achieve the same results.

Competition, both in the least expensive and in the most expensive areas, is keen. One day, the Belgians sold 1,000,000 of 6 per cent bonds and three days later the French 8 per cent bonds rose a full point to 108, while previous high prices were passed by the Belgian 7½s and three or four European municipal bonds.

Chamber of commerce reports show condition of local business for the personnel, runs higher in other parts of the country.

Buyers in both retail and wholesale lines are proceeding cautiously, but with more confidence than the season advanced, bringing with it increased confidence, activity and relief in the unemployment situation. Improved traffic conditions and more prompt deliveries make it possible to purchase in smaller lots, and this in turn is a plus factor.

Heavy Stock Selling Affects Prices; Rail Earnings Perplex.

By ALEXANDER DANA NOYES.
EXCLUSIVE DISPATCH.

NEW YORK, March 27.—The about 215,000 cars, or 8 per cent bond, stock, grain market and ahead of 1931.

The showing differs so widely as to indicate very unequal results for the country as a whole.

New York Central's gross earnings of \$1,060,000, 15 per cent, Baltimore and Ohio's \$669,000, or 6 per cent, Delaware and Hudson's \$129,000, or 7 per cent, the Big Four \$715,000, or 11 per cent. The Southern Pacific's gross decreased to \$2,610,000, 18 per cent, and there are declines in the St. Louis and San Francisco and on several eastern railroads.

The companies give out their statements, will better determine how the increasing traffic was divided, either geographically or by kind of freight.

CAN SEND MONEY NOW TO RUSSIAN CITIES.

Probable the rates on other European markets were affected by this downward plunge; at all events their recent rise was discontinued much by the wave of speculative events to leave them subject to shifts or speculative sentiment.

The foreign exchange market seemed to regard the market's continued fall with much perplexity. Indeed, one had only to read the news of the fall of the Berlin bank on Wednesday morning from Berlin and day morning from New York, and back again, respectively, to see how completely at variance with each other are the impressions derived by those in the financial community from the Russian Commission's new proposals. But the fact should not be overlooked that, in the recent conjuncture of German currency inflation and German mark confusion, the country was unable to make up its mind to take the steps which were taken by the German government.

The decline in stocks was probably the result of the close and there were numerous partial recoveries which, however, were distributed very irregularly. For the early fall in prices the only reason which seems to be advanced is that stocks and gold up too fast" and that "it was time for a reaction." These are weighty reasons on the stock exchange though they have limited weight.

Individual statements of railroad earnings in February, a considerable number of which have now been published, are quite uniformly reporting larger net results than in 1931, although total net operating revenue of the railroads during that month last year was 48 per cent less than in 1930.

What is now awaited with great curiosity is evidence of the extent to which the greatly increased "car loadings" of last month will have been translated into larger gross receipts. During February these weekly loadings footed up

upon the exchange of dollars or retransferred to Soviet rubles will be made by the Russian State Bank at their official buying rate of the day of receipt. According to the Berlin advice the value of \$1,200,000 Soviet rubles and one of one Reichsmark was 1580 Soviet rubles.

Telegraphic transfers can be made only to government towns. Payments by letter, however, can be made to all places in Russia.

The telephone rates from Berlin to Moscow amount to 800 Reichsmark and from Moscow to the place of payment, 50,000 Soviet rubles.

AND THE LOS ANGELES TRUST & SAVINGS BANK.

Kingdom of the Netherlands
(Holland)Fifty-Year 6% Sinking Fund
Bonds

These bonds are the direct obligation of the Kingdom of the Netherlands, and are authorized by Act of Parliament. Holland has been for centuries one of the foremost financial and commercial powers of the world and for generations one of the most important markets for United States and other foreign securities.

Holland's per capita rate of her total funded debt at the close of 1921 was less than \$140, at par of exchange, compared with approximately \$195 in the United States and \$650 per capita in Great Britain.

The monetary unit of Holland is the guilder (florin,) with a value at par of exchange of 40.2 cents in the United States. It is selling now at a discount of only about 4%. In London the guilder commands a premium of approximately 4%.

Plenty of Money For
Building Loans

Building a new home or apartment-house requires ready money. To expedite its immediate erection we are prepared to make liberal loans. Loans on any projected or recently completed residence or apartment-house that is well located in LOS ANGELES or its immediate vicinity will be

Closed Immediately—Without Delay
Loans to any amount will be made on apartment-houses, but on residences the limit is \$5000. Each loan is made for 15 years and may be paid off on or after three years without bonus. Interest is payable June 1 and December 1 in each year, and principal is reduced by the payment semi-annually of 3 per cent of the face of the loan. When "Building Loans" are made, papers must be recorded before any material is delivered or labor performed. Details will be furnished on application.

LOCAL STOCKS DULL
AND FEATURELESS.

Moderate activity in General Petroleum and a slight decline in Oatman United were the only features of the generally lifeless session at the Los Angeles Stock Exchange yesterday. General Petroleum advanced 1 point to 15 1/2 due to the arrival of a strong buying interest. Oatman United slumped off 2 1/4 cents to 50 1/2, closing weak at the low price for the day. Big Jim has been advancing recently and closed yesterday at 18 cents, a cent advance. A few sales of United Eastern were recorded at \$1.85 1/4, a net loss of 1/4 cent. Globe Petroleum, the newly-listed stocks, advanced 1 cent to 13. Southern California Edison Company was unchanged at 98 5/8.

Another Marketing Scheme
Up to Farmers.

Five States Are Included in
Present Plans.

"Dark Belt" Production is
400,000,000 Pounds.

(BY A. P. NIGHT WIRE)
HOPKINSVILLE (Ky.) March 27.—Four hundred million pounds of tobacco, grown in five States in this section of the country, will be sold co-operatively next year, if the plans now under way are successful.

The second big tobacco marketing association in Kentucky and adjoining States is in progress of organization in Western Kentucky, Tennessee and Indiana. Approximately 250,000,000 pounds of tobacco are grown in the center section, according to estimates.

The forces that organized suc-

cessfully the Burley Tobacco

Growers' Co-operative Marketing Association in Central Kentucky,

Ohio, Indiana and West Virginia,

are at work in the "dark belt" now.

The campaign will close October 1, with the option of con-

tinuing until November 1, if the

necessary amount of tobacco is not pledged by the earlier date.

TALE TO FARMERS.

Headquarters were opened here

early in March, and workers

began touring the "black patch,"

telling the farmers of the pro-

posed association. District head-

quarters have been opened at Parkersburg and Parkersburg, Padu-

ca, Ky., and at Weston, West Vir-

ginia, and Bowling Green, Ky.

Although all of the tobacco is

classified generally as dark, four

types of tobacco are grown in this

WELFARE BODY AND WAGE
BOARD TO PLAN PAY
CUTS.

(BY A. P. NIGHT WIRE)

SAN FRANCISCO, March 27.

The Industrial Welfare Commission of California announced today that its own investigation had revealed

decreased cost of living in certain

items which made it advisable that the wage board representing em-

ployers and employees within the

state be called together again to consider revision of the mini-

mum wage scale for women and

children in California. The wage

board will meet with the commis-

sion on Thursday.

The wage board is composed of

thirteen representatives each of

employers and employees, while at

their January meeting a request of

the California Manufacturers

Association that the minimum be reduced

from its present level of \$16 a

week to \$11.50 was considered, but

the commission took no action.
